Answers

Rural Development and Sustainability

Doncaster College is embarking on a sustainable plan/programme to engage the borough in all things rural

Food growing on several layers

Energy / Carbon Issues

Education/ Training

The college being a benchmark centre for information-practical help and supply. A visual and practical resource open to the borough. Directing and participating in best practice and innovation

Rural Development and Sustainability

From three chickens in the garden to a herd
of cattle roaming the range.

From log burning stoves to industrial
biomass infrastructure

Achievable through partnership

Major Partnerships

Education- Natural England
Doncaster Borough Council } New Build
Forestry }
Authority Biomass } EON

Practical- Drax
Natural England
Doncaster Borough Council Woodland

Moral- DMBC National Health Service

Darren Whitaker
